Part III DETAILED ACTION

1. This office action is in response to the amendment filed on 5/18/06. Claims 3-5 and 20-24 are being allowed over the prior art of record. Applicant's arguments have been found to be persuasive. Prosecution on the merits is closed in this application. Claims 6-19 need to be cancelled as drawn to a non-elected group. Claims 6-19 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected Group, the requirement having been traversed in Paper filed on 9/8/05. The requirement is still deemed proper and is therefore made FINAL.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches different ways of updating printer's configuration, but prior art of record fails to teach, or suggest the claimed limitations of (in combination with all other features in the claims), a computer program product causing a printer to perform a method of controlling a configuration of the printer or a printer, comprising: sending the printer control interface to the remote computer, wherein the printer control interface is in the form of a Web page; **receiving, from the computer remote from the printer, a series of printer control parameters in response to sending the printer control interface;** and updating a control memory of the printer based on the series of printer control parameters.
